27 May 1983

Tom Cormack
Executive Secretary

History Staff Bi-Weekly

Don interviewed this week Mr. Garrison Norton, a former high-level science and technology official of the Defense Department, concerning the U-2 program.

We received a phone call from P&PD's Photography Branch asking whether we could provide lists of Deputy Directors and Assistant Deputy Directors for their use in updating and organizing their photo files. [redacted] suggested that if they submit a memo defining what they need, the History Staff could probably supply the information.

STAT

[redacted] has located all but 2 of the 367 documents on our TS inventory, and is still trying to run these down before closing out that project.

STAT

All of us, except Diane, are scheduled to attend a second 2-day Wang course at various dates in June and July.

We received a routine request from NSA for two of their historians to have access to CIA documents at the Eisenhower Library.
